

College Student Achievement Project (CSAP)

(January 15, 2013) Notice to Sault College Students:

In order to support greater student success in mathematics and languages, Sault College is a participant in the College Student Achievement Project (CSAP). This project is a province-wide program of research and deliberation into student achievement in college mathematics and languages, being undertaken by a research group, based at Seneca College, and funded by the Ministry of Education and the Ministry of Training, Colleges and Universities.

CSAP research analyses mathematics and language achievement of all first-year students in high school mathematics and English / French (including those who are not currently enrolled in college). This project is a province-wide program of research and deliberation into student achievement in college mathematics and languages, being undertaken by a research group, based at Seneca College, and funded by the Ministry of Education and the Ministry of Training, Colleges and Universities. This ensures (a) that no students can be identified through OCAS and by existing College

in participation and achievement.

our student participation numbers against the data split into two main categories; 'Good Grade' (students who are currently enrolled in college) and 'Good Grade' (students who are not currently enrolled in college). Information will be reported on the overall student participation and achievement.

Data Protection Policy, please see:

[Data Protection Policy](#). If you have any questions concerning the collection and use of personal information or if you do not wish to participate in this project, please contact the Sault College CSAP representative, Mr. Reno Palombi at 705-759-2554; ext. 2476 or Reno.Palombi@saultcollege.ca.

There will be no penalty for any student who does not wish to participate in this study.
